

Monday 11th May

Fairly recently I went to Granada , especially to visit the Alhambra. The Islamic Art in the Alhambra was truly awe inspiring. Tonight have a go at producing, realistically a small picture which reflects the style and embodiment of the traditional Islamic style which is based on mathematical patterns.

What to bring

Paper and pencil etc...

Mathematical instruments

Monday 18th March

Tonight is the AGM for Bury Art Society

Monday 1st June

Barbara Hepworth is one of the famous St Ives art group who produced some of the most wonderful sculptures I have seen. Very often her work was based on geometric designs before becoming 3D masterpieces.

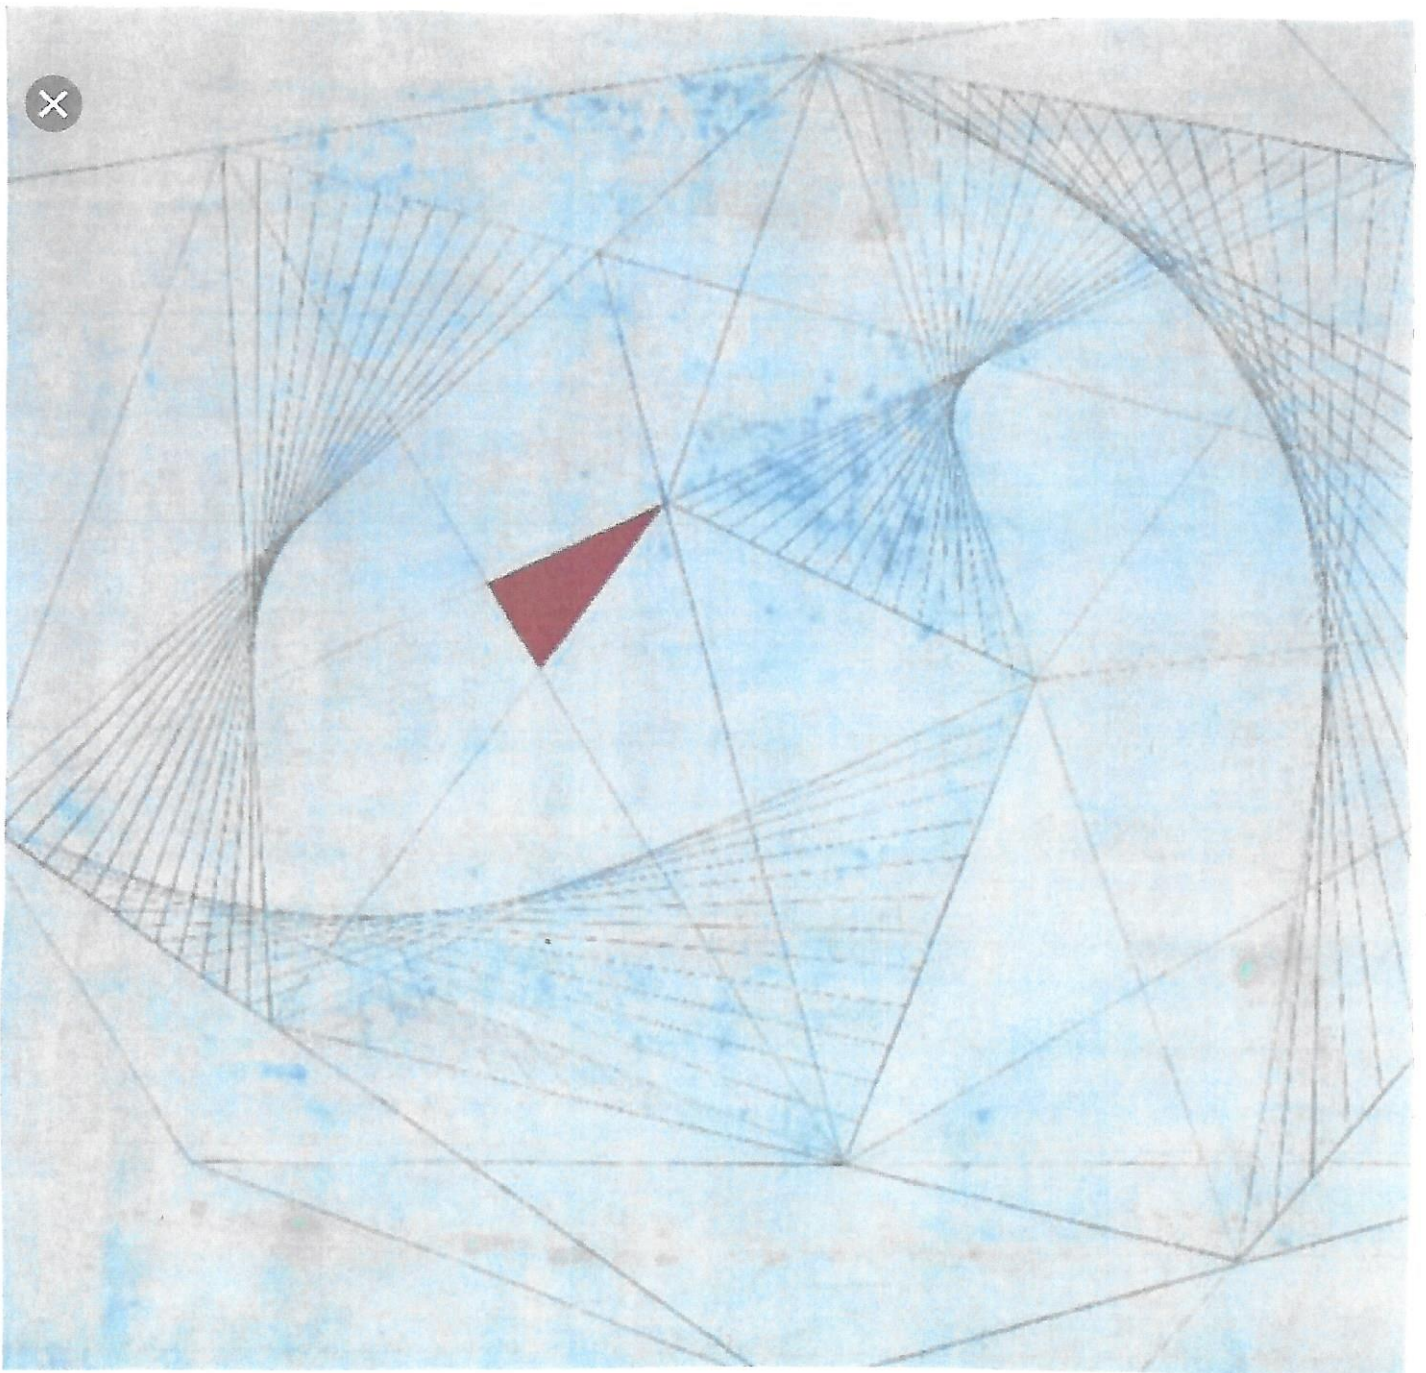

Below are some of her designs.

Tonight try and produce a geometric design you think could be transformed into a sculpture.

What to bring

Paper and pencil Etc.....

Mathematical instruments

Mon 15th June

Tonight select a flower of your choice and try to create a pattern from it structure similar to the one below.

What to bring

Your choice including a flower

Mon 22nd June

Social night of excessive drink and chat.

*"And this is Tod Stillman—the black hole of fun."*
